

CERTIFICATE OF COMPLIANCE

with

FEDERAL WAGE RATE REQUIREMENT

Pursuant to Title 40, Chapter 31, Subchapter IV of the United State Code, I hereby certify on behalf of the Colorado Department of Transportation (CDOT) that with the award of ARRA Tiger grant funding and utilization of federal funds for construction, the CDOT will insure compliance with the federal wage rate requirements on all components of the "Roads, Rivers and Recovery" project.

The CDOT currently has an established labor compliance program that insures compliance with the federal wage requirements and it is implemented statewide on all federally aided construction projects. The Civil Rights Office for the region where the project is constructed is responsible for the oversight and enforcement of labor compliance. As the Region Civil Rights Manager, I will insure compliance with the federal wage rate requirements for construction activities related to the "Roads, Rivers and Recovery" project.
